

oenpay – Financial Innovation Hub

The oenpay – Financial Innovation Hub is an innovation initiative launched by the Oesterreichische Nationalbank (Austrian central bank), with the aim of promoting digital payments all across Austria and beyond.

A hub for cross-industry innovation, oenpay proactively promotes the development of innovative, sustainable, inclusive and secure payment solutions in cooperation with all stakeholders.

oenpay's innovation activity fosters competition and contributes substantially to enhancing Austria's attractiveness as a business location and ensuring the independence of payment solutions in Europe.

As 100% subsidiary of the Oesterreichische Nationalbank, oenpay holds a neutral position in the market.

VISION

We innovate the way we pay.

MISSION

We pave the way to payment innovation
in Austria in a European context.

ABOUT US

Joining forces to advance payments innovation

Digitalization and new technologies have fundamentally changed the global finance industry – a trend that is still accelerating.

In light of disruptive technologies, rising customer expectations and growing international competitive pressure, the current payment solutions in the Austrian market will not suffice to keep up with digitalization. The time to take action is now.

Joining forces with all stakeholders is our best chance at creating the momentum required to implement digital payments across Austria. oenpay brings together payments stakeholders from Austria and beyond to capitalize on strengths and create proactive solutions – by developing innovative, sustainable, inclusive and secure payment solutions for the Austrian market .

#togetherwithoenpay

WHAT WE ARE ABOUT

Innovation

Together with our stakeholders, we work on implementing digital payments solutions in Austria and beyond.

Sustainability

We pay special attention that the innovations we support are economically, socially and environmentally sustainable, with the United Nation's Sustainable Development Goals serving as a guideline.

Inclusion

We make sure no social group is excluded from access to payment services despite the advance of digitalization.

Security

Our digital payment solutions adhere to comprehensive security standards to guarantee the protection of our stakeholders and the general public.
